Event Objective

The session was to create awareness among faculty and students about the importance of Intellectual property (IP), methods of IP Protection and how innovations can be effectively commercialized through proper legal frameworks.

Event Outcome

Protecting and commercializing intellectual property is not solely the inventor's responsibility but a collective effort involving governments, businesses, and academia. A strong IP ecosystem encourages continuous innovation and drives societal and economic benefits.

Event Outcome

The Inauguration of IP UTSAV and Celebration of World Creativity and Innovation Day served as a significant milestone in promoting IP awareness and fostering a culture of innovation within Educational institutions. For Shyam Lal College's IIC, the event underscored the importance of integrating IP education into our academic framework and provided actionable insights to enhance our innovation ecosystem. Moving forward, the IIC is committed to implementing the learnings from this event to nurture and protect the creative endeavors of our students and faculty.
