Event Objective

- Provide participants with a comprehensive understanding of technology maturity frameworks such as TRL, MRL, and IRL, and their role in evaluating and scaling innovations.
- Bridge the gap between research, innovation, and industry application by explaining pathways for technology validation and deployment.
- Create awareness about intellectual property (IP) protection, management, and commercialization strategies.

Event Outcome

- Gain a solid understanding of TRL, MRL, and IRL frameworks and how they are used to assess technology maturity and readiness.
- Identify the key stages involved in transforming research ideas into commercially viable products.
- Understand the fundamentals of intellectual property (IP) rights, including protection, filing, and commercialization strategies.
- Develop awareness of technology transfer mechanisms between academia, industry, and research organizations.
